Bismillahirrahman Rahim Alhamdulillah,

All praise to Allah, Who Alone has enabled us to continue our life and efforts for good, salawat and salaam on the Last Prophet, Muhammad (Peace Be Upon Him) whose footsteps we will follow till the end of time.

Alhamdulillah, we have managed to organise the 22nd IMAM Annual Scientific Conference (ASC) 2021 successfully from 4-5th December 2021 online.

This time, just like the last, we were still blanketed by the COVID-19 pandemic. After almost 2 years under its shadow, we finally see a little bit of light at the end of the tunnel and hopefully insya Allah, we might be able to embrace the shining light again, sooner rather than later.

The last ASC was held in a brief and truncated meeting due to the pandemic. Ala kulli hal, it was still a success in its own way and we managed to do our Biennial General Meeting, to select the current EXCO line up.

In 2020, the scientific committee had put up a pertinent program with regard to this pandemic at that particular period and we listened and talked to prominent personalities in the fight against COVID 19. This year, we discussed the pandemic again, albeit in different settings and perspectives, hence the theme of “LEAVING OR LIVING WITH COVID-19?” is aptly selected by the scientific committee. May Allah bless the efforts and sacrifice of all the personnel behind the organizing team who this ASC a success.

Alhamdulillah, this year we were able to organize a near ‘full conference’ – (virtually of course) according to IMAM’s tradition and concept.

As always, we were happy to meet old friends and welcome new ones in our efforts to make IMAM mainstream in society and also medical fraternities. Assalamualaykum and keep safe.
